I am writing to state my opposition to further deregulation of the Media through the Broadcast Ownership Docket - 02 - 277. Allowing monopolies to grow locally and nationally have proven detrimental to local and national markets. The only winners are the monopoly owners and the losers are the people of this country, who own the airwaves. Jobs have been lost out of greed and the competition that once drove radio and TV stations is gone and with it the benefits that the community gained from it all.

Thank You

Thank You.
